PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience specializing in building efficient web applications using React.js, Node.js, and DB2 databases. Passionate about performance optimization, process automation, and working in Agile environments. Seeking to contribute my technical and analytical skills to a dynamic IT team.

EXPERIENCE

Frontend Developer & Junior DBA INFOCURA (2023 - PRESENT)

- Led the development of internal web applications using React.js and Node.js, optimizing workflows for the finance department.
- Designed and implemented RESTful API integrations, reducing data processing time by 15%.
- Managed and optimized DB2 databases, performing performance analysis that decreased critical query response time by 20%.
- Automated repetitive logging and analysis tasks using Python and Bash scripts, saving approximately 5 hours per week of manual work for the team.

Database Analyst

INFOSYST 2015 - 2018

- Developed and implemented predictive analysis models using Weka to identify sales trends / predict equipment failures for business intelligence.
- Designed relational database schemas (ERD, UML), ensuring data integrity and efficiency for key projects.

EDUCATION

.NET DEVELOPMENT WITH C#

Syntra AB, Antwerp Campus - 2021

DUTCH AS A SECOND LANGUAGE (NT2)

Ghent University (UGent) - 2018

INTELLIGENT SYSTEMS ENGINEERING

Autonomous University of the State of Mexico - (2010 - 2015)

Focus on database management and programming.
